

Subject Index

Alphoid satellite DNA

of human Y chromosome: TYLER-SMITH 93

Antigen

H-Y

used in analysis of XX hermaphrodites: WIBERG & SCHERER 163

Y chromosome and spermatogenesis: BURGOYNE 133

Sxs

used in analysis XX hermaphrodites: WIBERG & SCHERER 163

Autosome

testis-determining genes: DE LA CHAPELLE 33

testis-specific transcripts in human: LEROY, SEBOUN, MATTEI, FELLOUS & BISHOP 177

Bkm sequences

sex determination in the mouse: ERICKSON, DURBIN & TRES 25

Caenorhabditis elegans

primary sex determination: HODGKIN 5

Centromere

repeated DNA sequences in human Y chromosome: TYLER-SMITH 93

Chromosomal rearrangement

genetic analysis of human Y chromosome: PRITCHARD & GOODFELLOW 59

Chromosome

human

-mediated gene transfer: PRITCHARD & GOODFELLOW 59

Cytotoxic T-cell

mapping H-Y gene: SIMPSON AND OTHERS 157

Deletion mapping

analysis of X-Y interchange males and females: FERGUSON-SMITH, AFFARA & MAGENIS 41

Y-chromosomal gene in gonadoblastoma: PAGE 151

DNA

alphoid satellite

in human Y chromosome: TYLER-SMITH 93

probe

analysis of *Sxr* mutation in mouse: BISHOP AND OTHERS 167

detection of testis-specific transcripts: LEROY, SEBOUN, MATTEI, FELLOUS & BISHOP 177

to map testis-determining locus: MÜLLER 51

to study *TDF* in humans: DE LA CHAPELLE 33

repeated sequences

in XX/XY mosaic mouse: SINGH, MATSUKUMA & JONES 143

of human Y chromosome: SMITH, YOUNG, TALBOT & SCHMECKPEPER 77

Y chromosomal

in XX hermaphrodites: WIBERG & SCHERER 163

Dosage

compensation

in sex determination in nematodes: HODGKIN 5

Drosophila

genetics of sex determination: NÖTHIGER & STEINMANN-ZWICKY 17

sex determination

compared with nematodes: HODGKIN 5

Dysgenetic gonad

gene causing gonadoblastoma: PAGE 151

Evolution

repeated DNA of human Y chromosome: SMITH, YOUNG, TALBOT & SCHMECKPEPER 77

Gene

transfer

chromosome-mediated in human: PRITCHARD & GOODFELLOW 59

Genetic control

of sex determination in *Drosophila*: NÖTHIGER & STEINMANN-ZWICKY 17

Genital ambiguity

testis-determining gene in humans: DE LA CHAPELLE 33

Gonad

dysgenetic

gene causing gonadoblastoma: PAGE 151

Gonadoblastoma

caused by Y-chromosomal gene: PAGE 151

Hermaphrodite

primary sex determination in nematodes: HODGKIN 5

true in humans: DE LA CHAPELLE 33

Human

chromosome-mediated gene transfer: PRITCHARD & GOODFELLOW 59

DNA-derived probe

detection of testis-specific transcripts: LEROY, SEBOUN, MATTEI, FELLOUS & BISHOP 177

interchanges between X and Y chromosomes:

WEISSENBACH AND OTHERS 67

mapping H-Y gene: SIMPSON AND OTHERS 157

pseudoautosomal genes: GOODFELLOW AND OTHERS 119

telomeres of X and Y chromosomes: COOKE 101

testis-determining gene: DE LA CHAPELLE 33

testis determining locus: MÜLLER 51

XX males

presence of testicular tissues: WIBERG & SCHERER 163

X-Y interchange males and females: FERGUSON-SMITH,

AFFARA & MAGENIS 41

Y chromosome

gene causes gonadoblastoma: PAGE 151

incomplete coding sequences for steroid sulphatase:

FRASER AND OTHERS 127

repeated DNA: SMITH, YOUNG, TALBOT &

SCHMECKPEPER 77

repeated structures in centromeric region: TYLER-

SMITH 93

Y-linked genes

sex determination: CRAIG, LEVY & FRASER 185

H-Y antigen

used in analysis of XX hermaphrodites: WIBERG & SCHERER 163

Y chromosome in spermatogenesis: BURGOYNE 133

Hybridization

in situ

mapping the X chromosome: AVNER AND OTHERS 107

H-Y gene

mapping in mouse and human: SIMPSON AND OTHERS 157

Hypospadias

testis-determining gene in humans: DE LA CHAPELLE 33

In situ

hybridization

mapping the X chromosome: AVNER AND OTHERS 107

Map

chromosome

analysis of X-Y interchange males and females: FERGUSON-SMITH, AFFARA & MAGENIS 41

deletion

Y-chromosomal gene in gonadoblastoma: PAGE 151

of testis-determining gene: DE LA CHAPELLE 33

X chromosome

of mouse: AVNER AND OTHERS 107

Y chromosome

analysis by gene transfer: PRITCHARD & GOODFELLOW 59

MIC2

pseudoautosomal gene in man: GOODFELLOW AND OTHERS 119

use as marker for Y chromosome: PRITCHARD & GOODFELLOW 59

Minisatellite

interchanges between X and Y chromosomes: WEISSENBACH AND OTHERS 67

Molecular organization

sex-determining gene: CRAIG, LEVY & FRASER 185

Mosaicism

XX/YY mosaic in mouse: SINGH, MATSUKUMA & JONES 143

Mouse

Sxr mutation

use of specific DNA probes: BISHOP AND OTHERS 167

XX/XY mosaic

analysis using repeated DNA sequences: SINGH, MATSUKUMA & JONES 143

Y chromosome

and mapping the X chromosome: AVNER AND OTHERS 107

role in spermatogenesis: BURGOYNE 133

sex determination: ERICKSON, DURBIN & TRES 25

Y-linked genes

sex determination: CRAIG, LEVY & FRASER 185

Mus spretus

mapping the X chromosome: AVNER AND OTHERS 107

Nematode

Caenorhabditis elegans

primary sex determination: HODGKIN 5

Primate

evolution and repeated DNA of Y chromosome: SMITH, YOUNG, TALBOT & SCHMECKPEPER 77

Pseudoautosomal gene

in man: GOODFELLOW AND OTHERS 119

steroid-sulphatase-related sequences in human: FRASER AND OTHERS 127

Pseudoautosomal region

interchanges between X and Y chromosomes:

WEISSENBACH AND OTHERS 67

Repeated DNA

in centromeric region of human Y chromosome: TYLER-SMITH 93

in XX/XY mosaic mouse: SINGH, MATSUKUMA & JONES 143

of human Y chromosome: SMITH, YOUNG, TALBOT & SCHMECKPEPER 77

Sex

chromosome

and autosomal testis-determining genes: DE LA CHAPELLE 33

determination

in *Drosophila*: NÖTHIGER & STEINMANN-ZWICKY 17

in mouse: ERICKSON, DURBIN & TRES 25

in nematodes: HODGKIN 5

in the mouse: BISHOP AND OTHERS 167

mammalian Y chromosome: CRAIG, LEVY & FRASER 185

Y chromosome and autosomal testis-determining genes: DE LA CHAPELLE 33

reversal

in humans: SIMPSON AND OTHERS 157

in mouse: SIMPSON AND OTHERS 157

interchanges between X and Y chromosomes: WEISSENBACH AND OTHERS 67

in the mouse: BISHOP AND OTHERS 167

testis-determining locus: MÜLLER 51

Small testes (ST)

development in XX/XY mosaic: SINGH, MATSUKUMA & JONES 143

Spermatogenesis

role of mammalian Y chromosome: BURGOYNE 133

Steroid sulphatase

incomplete coding sequences on human Y chromosome: FRASER AND OTHERS 127

sex determination in mammals: CRAIG, LEVY & FRASER 185

Sxr

mouse mutation

use of specific DNA probes: BISHOP AND OTHERS 167

Sxs antigen

used in analysis of XX hermaphrodites: WIBERG & SCHERER 163

T cell

cytotoxic clones to map H-Y gene: SIMPSON AND OTHERS 157

TDF

- analysis of human Y chromosome by gene transfer: PRITCHARD & GOODFELLOW 59
- and X–Y interchange males and females: FERGUSON-SMITH, AFFARA & MAGENIS 41
- in humans: DE LA CHAPELLE 33

Telomere

- of human X and Y chromosomes: COOKE 101

Testis

- determination
 - interchanges between X and Y chromosomes: WEISSENBACH AND OTHERS 67
- determining factor in humans: DE LA CHAPELLE 33
- differentiation in XX males and XY females: MÜLLER 51
- mouse
 - development in XX/XY mosaic: SINGH, MATSUKUMA & JONES 143
- specific transcripts
 - detected by human Y-DNA-derived probe: LEROY, SEBOUN, MATTEI, FELLOUS & BISHOP 177

Testis-determining factor (see TDF)**X chromosome**

- human
 - telomeres: COOKE 101
- mapping in the mouse: AVNER AND OTHERS 107
- steroid-sulphatase-related sequences: FRASER AND OTHERS 127
- testis-determining genes: DE LA CHAPELLE 33

X-inactivation

- pseudoautosomal genes in man: GOODFELLOW AND OTHERS 119

XX hermaphrodite

- analysis with antigens: WIBERG & SCHERER 163

XX male

- interchanges between X and Y chromosomes: WEISSENBACH AND OTHERS 67
- presence of testicular tissue: WIBERG & SCHERER 163
- testis-determining gene in humans: DE LA CHAPELLE 33
- testis-determining locus: MÜLLER 51

XY female

- molecular genetic analysis: MÜLLER 51

X–Y interchange

- deletion mapping of Y-specific sequences: FERGUSON-SMITH, AFFARA & MAGENIS 41

X–Y sequences

- in the mouse: AVNER AND OTHERS 107

Y chromosome

- and autosomal testis-determining genes: DE LA CHAPELLE 33
- DNA-derived probe
 - detection of testis-specific transcripts: LEROY, SEBOUN, MATTEI, FELLOUS & BISHOP 177
- gene causing gonadoblastoma: PAGE 151
- human
 - telomeres: COOKE 101
- incomplete coding sequences for steroid sulphatase: FRASER AND OTHERS 127
- interchanges between human X and Y: WEISSENBACH AND OTHERS 67
- map
 - analysis by gene transfer: PRITCHARD & GOODFELLOW 59
 - analysis of X–Y interchange males and females: FERGUSON-SMITH, AFFARA & MAGENIS 41
 - H–Y gene in humans: SIMPSON AND OTHERS 157
- molecular search for sex-determining gene: FRASER AND OTHERS 127
- repeated DNA: SMITH, YOUNG, TALBOT & SCHMECKPEPER 77
- repeated DNA in centromeric region of human: TYLER-SMITH 93
- role in spermatogenesis: BURGOYNE 133
- sex determination in the mouse: ERICKSON, DURBIN & TRES 25
- specific repeated DNA sequences: SINGH, MATSUKUMA & JONES 143
- Sxr* mutation in mouse: BISHOP AND OTHERS 167
- symmetry with X-chromosome sequences in mouse: AVNER AND OTHERS 107
- testis-determining locus: MÜLLER 51

Y-DNA

- in XX hermaphrodites: WIBERG & SCHERER 163

Y-linked genes

- sex determination – molecular aspects: CRAIG, LEVY & FRASER 185

Y-specific DNA sequences

- analysis of X–Y interchange males and females: FERGUSON-SMITH, AFFARA & MAGENIS 41
