## *Lmx1b* controls the differentiation and migration of the superficial dorsal horn neurons of the spinal cord

Yu-Qiang Ding, Jun Yin, Artur Kania, Zhong-Qiu Zhao, Randy L. Johnson and Zhou-Feng Chen

There was an error published in *Development* **131**, 3693-3703.

The incorrect image (a duplicate of Fig. 5L) was shown in Fig. 5E. A correct image of *Zic2* expression in a wild-type E14.5 mouse embryo is shown below and is representative of several experiments. The findings of this experiment remain unchanged.

The authors apologise to readers for this mistake.
