Journal of Embryology and Experimental Morphology

Volume 40  August 1977

Summerbell, Dennis. Reduction of the rate of outgrowth, cell density and cell division following removal of the apical ectodermal ridge of the chick limb-bud 1–21

Prothero, John W. and Tamarin, Arnold. The blastomere pattern in echinoderms: cleavages one to four 23–34

Deak, I. I. Mutations of Drosophila melanogaster that affect muscles. 35–63

Bownes, Mary. Abnormal oogenesis and embryogenesis resulting from centrifuging Drosophila melanogaster females 65–81

Johnson, Lincoln V., Calarco, Patricia G. and Siebert, Margaret L. Alkaline phosphatase activity in the preimplantation mouse embryo 83–89

Deter, Russell L. Quantitative morphological analysis of early mouse embryogenesis in vitro 91–100

Minkoff, Robert and Kuntz, Amy J. Cell proliferation during morphogenetic change: analysis of frontonasal morphogenesis in the chick embryo employing DNA labeling indices 101–113

Hogan, James C. and Trinkaus, J. P. Intercellular junctions, intramembranous particles and cytoskeletal elements of deep cells of the Fundulus gastrula 125–141

Burgoyne, Paul S. and Ducibella, Thomas. Changes in the properties of the developing trophoblast of preimplantation mouse embryos as revealed by aggregation studies 143–157

Weinberg Sheila R., Chovaniec, Margaret E. and Stohlman, Frederick. Cell growth and differentiation of murine extra-embryonic fetal and adult hematopoietic tissues in diffusion chamber cultures 159–166

Marshall, J. A. and Dixon, K. E. Nuclear transplantation from intestinal epithelial cells of early and late Xenopus laevis tadpoles 167–174

Straznicky, K. and Tay, D. Retinal growth in double dorsal and double ventral eyes in Xenopus 175–185

Manes, Mario E. and Barbieri, Francisco D. On the possibility of sperm aster involvement in dorso-ventral polarization and pronuclear migration in the amphibian egg 187–197

Forman, D. and Garrod, D. R. Pattern formation in Dictyostelium discoideum. II. Differentiation and pattern formation in non-polar aggregates 229–243

Grosch Daniel, S., Kratsas Robert, G. and Peters, Robert M. Variation in Habrobracon juglandis ovariole number. I. Ovariole number increase induced by extended cold shock of fourth-instar larvae 245–251

Jones, G. E. Cell disposition and adhesiveness in the developing chick neural retina 253–258

Scott, William J. and Holson, Joseph F. Weight differences in rat embryos prior to sexual differentiation 259–263

Mizukami, Setsuro and Sato, Noriyuki. Fusion of dissociated fish embryonic cells 265–270

Yanagisawa, K. O. and Fujimoto, H. Viability and metabolic activity of homozygous Brachyury (T) embryos 271–276

Yanagisawa, K. O. and Fujimoto, H. Differences in rotation-mediated aggregation between wild-type and homozygous Brachyury (T) cells 277–283

Fallon, John F. and Cameron, Jo Ann. Interdigital cell death during limb development of the turtle and lizard with an interpretation of evolutionary significance 285–289
