Contents

Volume 99 (2) 1987

Davis, L. A. and Lemanski, L. F.
Induction of myofibrillogenesis in cardiac lethal mutant axolotl hearts rescued by RNA derived from normal endoderm

Mita-Miyazawa, I., Nishikata, T. and Satoh, N.
Cell- and tissue-specific monoclonal antibodies in eggs and embryos of the ascidian Halocynthia roretzi

Nishikata, T., Mita-Miyazawa, I., Deno, T. and Satoh, N.
Muscle cell differentiation in ascidian embryos analysed with a tissue-specific monoclonal antibody

Tomlinson, B. L. and Tassava, R. A.
Dorsal root ganglia grafts stimulate regeneration of denervated urodele forelimbs: timing of graft implantation with respect to denervation

Iannaccone, P. M., Weinberg, W. C. and Berwits, L.
A probabilistic model of mosaicism based on the histological analysis of chimaeric rat liver

Cooke, J. and Smith, J. C.
The midblastula cell cycle transition and the character of mesoderm in the u.v.-induced nonaxial Xenopus development

Berking, S.
Homarine (N-methylpicolinic acid) and trigonelline (N-methylnicotinic acid) appear to be involved in pattern control in a marine hydroid

Stephens, N. and Holder, N.
Reformation of the pattern of neuromuscular connections in the regenerated axolotl hindlimb

Rogers, J. M. and Hurley, L. S.
Effects of zinc deficiency on morphogenesis of the fetal rat eye

Nagel, M.-D. and Nagel, J.
Development of erythroid colony-forming cells in rat fetal spleen: apparent lack of sensitivity to an in vivo corticosteroid excess as compared to fetal liver

Steventon, G. B. and Williams, K. E.
Ethanol-induced inhibition of pinocytosis and proteolysis in rat yolk sac in vitro

Ball, E. E., de Couet, H. G., Horn, P. L. and Quinn, J. M. A.
Haemocytes secrete basement membrane components in embryonic locusts

Stern, C. D. and Keynes, R. J.
Interactions between somite cells: the formation and maintenance of segment boundaries in the chick embryo

Lacalli, T. C. and West, J. E.
Ciliary band formation in the doliolaria larva of Florometra. II. Development of anterior and posterior half-embryos and the role of the mesentoderm
