

Cover: Embryonic day 8 chicken hindgut was cultured for 72 hours on a fibronectin-coated surface in the presence of supplemental glial-derived neurotrophic factor (Gdnf). Immunostaining with a neural crest cell marker (Hnk1; red) and a neuronal marker (Tuj1; green) demonstrates robust migration of the enteric neural crest cells. **See Research article by Nagy et al. on p. 264.**

SPOTLIGHT

- 183 An interview with Peter Lawrence
Vicente, C.

PRIMER

- 186 Measuring forces and stresses *in situ* in living tissues
Sugimura, K., Lenne, P.-F. and Graner, F.

REVIEW

- 197 The formation and function of the cardiac conduction system
van Weerd, J. H. and Christoffels, V. M.

STEM CELLS AND REGENERATION

- 211 Genetic analysis of Runx2 function during intramembranous ossification
Takarada, T., Nakazato, R., Tsuchikane, A., Fujikawa, K., Iezaki, T., Yoneda, Y. and Hinoi, E.
- 219 Genes implicated in stem cell identity and temporal programme are directly targeted by Notch in neuroblast tumours
Zacharioudaki, E., Housden, B. E., Garinis, G., Stojnic, R., Delidakis, C. and Bray, S. J.
- 232 Single epicardial cell transcriptome sequencing identifies Caveolin 1 as an essential factor in zebrafish heart regeneration
Cao, J., Navis, A., Cox, B. D., Dickson, A. L., Gemberling, M., Karra, R., Bagnat, M. and Poss, K. D.
- 244 The zebrafish tailbud contains two independent populations of midline progenitor cells that maintain long-term germ layer plasticity and differentiate in response to local signaling cues
Row, R. H., Tsotras, S. R., Goto, H. and Martin, B. L.

RESEARCH ARTICLES

- 255 The transcriptional repressor Blimp-1 acts downstream of BMP signaling to generate primordial germ cells in the cricket *Gryllus bimaculatus*
Nakamura, T. and Extavour, C. G.
- 264 Sonic hedgehog controls enteric nervous system development by patterning the extracellular matrix
Nagy, N., Barad, C., Graham, H. K., Hotta, R., Cheng, L. S., Fejzszak, N. and Goldstein, A. M.

- 276 RING1 proteins contribute to early proximal-distal specification of the forelimb bud by restricting *Meis2* expression
Yakushiji-Kaminatsui, N., Kondo, T., Endo, T. A., Koseki, Y., Kondo, K., Ohara, O., Vidal, M. and Koseki, H.
- 286 Neurogenesis in sea urchin embryos and the diversity of deuterostome neurogenic mechanisms
Garner, S., Zysk, I., Byrne, G., Kramer, M., Moller, D., Taylor, V. and Burke, R. D.
- 298 Neurogenic gene regulatory pathways in the sea urchin embryo
Wei, Z., Angerer, L. M. and Angerer, R. C.
- 306 Two Forkhead transcription factors regulate cardiac progenitor specification by controlling the expression of receptors of the fibroblast growth factor and Wnt signaling pathways
Ahmad, S. M., Bhattacharyya, P., Jeffries, N., Gisselbrecht, S. S. and Michelson, A. M.
- 318 Prox1 and fibroblast growth factor receptors form a novel regulatory loop controlling lens fiber differentiation and gene expression
Audette, D. S., Anand, D., So, T., Rubenstein, T. B., Lachke, S. A., Lovicu, F. J. and Duncan, M. K.
- 329 A new level of plasticity: *Drosophila* smooth-like testes muscles compensate failure of myoblast fusion
Kuckwa, J., Fritzen, K., Buttgerit, D., Rothenbusch-Fender, S. and Renkawitz-Pohl, R.
- 339 Dual function of Bmpr1a signaling in restricting preosteoblast proliferation and stimulating osteoblast activity in mouse
Lim, J., Shi, Y., Karner, C. M., Lee, S.-Y., Lee, W.-C., He, G. and Long, F.
- 348 c-Raf promotes angiogenesis during normal growth plate maturation
Liu, E. S., Raimann, A., Chae, B. T., Martins, J. S., Baccarini, M. and Demay, M. B.
- 356 Crim1 regulates integrin signaling in murine lens development
Zhang, Y., Fan, J., Ho, J. W. K., Hu, T., Kneeland, S. C., Fan, X., Xi, Q., Sellarole, M. A., de Vries, W. N., Lu, W., Lachke, S. A., Lang, R. A., John, S. W. M. and Maas, R. L.
